

Please amend Claim 20 as follows.

20. (Amended) The method as recited in claim 14, wherein the step of
5 generating a translation program further comprises:

converting an opcode of a source device program to an opcode of a
translation machine program by comparing the source opcodes to possible translation
opcodes;

- 10 converting the operand of the source opcode by comparing an operand of
the source opcode in a generic expression with a generic expression for a translation
operand; and
combining the translation opcode and the translation operand to form a
translation.
